Art Unit: 1722

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

IN THE CLAIMS

This application is in condition for allowance except for the presence of claim 18 directed to a method non-elected without traverse. Accordingly, claim 18 has been cancelled.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a mold machine as defined in the claims of the instant application. The closest prior art disclosed by McNally (U.S. Pat. No. 6,113,382) is described in the previous Office Action. McNally fails to teach the bed of the apparatus to include sliding means for sliding the first platen as recited in the machine combinations of the claims of the instant application. Moreover, given the configuration of platens described in the McNally reference, there would not appear to be any reason or

Art Unit: 1722

suggestion for one of ordinary skill in the art to include such a structure within the apparatus disclosed by McNally.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
